

## Safe Grilling Tips:

### **FOLLOW THE MANUFACTURER'S INSTRUCTIONS**

Whether it's assembly, use, maintenance, cleaning, or storage, make your grill manufacturer's instructions your go-to resource for safe grilling.

### **POSITION THE GRILL IN A SAFE LOCATION**

Keep your grill outdoors and at least five feet from the house on a level surface that is clear of outdoor furniture, overhead trees, or other potential fire hazards.

### **CHECK FOR LEAKS**

Use a soapy water solution to check connections for leaks. Expanding bubbles indicate a leak. Follow this procedure every time you replace a cylinder.

## **FOLLOW PROPER LIGHTING PROCEDURES**

Follow the manufacturer's lighting instructions, and with all grill models, keep the lid open and don't lean over the grill when lighting it.

## **FOLLOW PROPER RELIGHTING PROCEDURES**

If your flame goes out, turn off the gas and refer to your owner's manual. At a minimum, with all grill models, keep the lid open and wait at least 15 minutes before relighting.

## **BE PRESENT**

Stay close and never leave your grill unattended.
